IT IS A MATTER OF HEALTH

STORRS TURNED DOWN.

New Health Ordinance Approved Over His Protest.

City Physician W. D. Storrs made as hard a fight as he could last night before the ways and means committee to prevent the reduction of his authority, but he failed utterly. The ways and means committee decided that it would be better to have the beard of health in charge of both the city physician and the city food inspector, instead of leaving the food inspector independent and making the city physician caar of the health department. Dr. Storrs endeavored to make it appear that his opposition to the proposed new ordinances was due wholly to the additional expense involved in the new way of organizing the department, but the committee saw through the scheme without any difficulty. The only additional expense necessitated by the new ordinance is about \$120 a year for meetings of the board of health. The new ordinance also gives the board of health control over the city physician and food inspector. The provision for regular meetings of the board is simply to enable the board to keep track of what the city physician and food inspector are doing. The board will meet once a month in the winter and twice a month during the five summer months, a total of 17 meetings a year. Heretofore the board of he present ordinance has been up. The total namber of board meetings called by Dr. Storrs during the year has been up. The total namber of board meetings called by Dr. Storrs during the year has been up. The total namber of board meetings called by Dr. Storrs during the year has been five. The old ordinance did not give the president of the heart has been up. The total number of board the right to terminate has been up. The total number of board the right to terminate has been up. The total number of board the right to terminate has been up. The will is in Washington's writing and was made the year of his death. It covers twenty-nine closely written pages, each of which bears the signature of the first president.

Proper Treatment of Pneumonia.

Proper Treatment of Pneumonia.

Preumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and that by giving Chamberlain's Cough Remedy the threatened attack of pneumonia may be warded off. This remedy is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith of Sanders, Ala., who is also in druggist, says of it: "I have been selling Chamberlain's Cough Hemedy and prescribing in in my practice for the past six years. I use it in cases of paremonia and have always gotten the best results." Sold by all druggists.

The Social Monday High Five club was entertained yesterday afternoon by Mrs. Charles E. Jordan and Mrs. Harry SALT WATER MAINS

To Be Laid in New York for Fire Fighting.

New York, March 1.—After a public hearing at which men were present representing billions of dellars invested in real estate, mercantile stocks and manufacturing plants, Mayor McClellan has given orders for the immediate preparation of pians, with a detailed estimate of the cost, for establishing a system of sait water mains to fight fire. The water will be taken from the North and East rivers. It is proposed thus to save greatly the drain to the fresh water supplies of Manhattan and Brooklyn.

It is proposed at first to install the system in the lower sections of the city, but if it comes up to expectation the mains will be extended further up town.

opposed to giving the exclusive use of this building to anybody. I feel most friendly to the Pipe Organ association, but I do not believe that we have the right to put this building out of our control. I would be willing to give the use of the building to the Pipe Organ association free of capture whenever it association free of cahrge whenever it wants it."
Councilman L. A. Ryder also was op-

Councilman L. A. Ryder also was opposed to giving the exclusive use of the building to the association, although he said he believed that the council should give the association every possible encouragement. "Would your association be satisfied." he inquired of Mr. Foster, "if we allowed to you the exclusive use of the pipe organ until it is paid for? It seems to me that this organ is a good thing, but it ought to be made to pay for itself. It ought never to be heard except to help pay for itself. If it is not able to pay for itself, it is not worth having. I believe that the organ can be made to pay for itself in the required time."

New Turkish Cruiser Sails.

Philadelphia. March 1.—The Turkish cruiser Nedjida, built at Cramps' ship-yards, sailed today for Constantinople. On the way down the Delaware river she stopped at Fort Mifflin and took aboard 100 tons of ammunition. The cruiser then proceeded to Norfolk to be placed in commission, after which she will leave for her gun trials off the Delaware capes. On the completion of the trial the Nedjidl will coal at Hampton Roads and sail for the Dardenelles. The vessel is manned by an American crew, most of her officers being conceived kith Cramps Ship Building company. Foster did not agree with this pany.

Miss Arlie Ewart. Mrs. Padgett and Mrs. Raub made the greatest number of progressions and cut for the head prize which was won by Mrs. Padgett. Mrs. Lucas, Mrs. Klingaman and Mrs. Neil cut for the second prize which was awarded to Mrs. Lucas. The guests' prize was won by Mrs. Kirkpatrick.

EXPRESS COMPANIES. Assistant Auditor Nation Says They Escape Taxation.

"One of the most glaring instances of corporations escaping taxation under our present system is the case of the express companies," said J. M. Nation, assistant state auditor.

assistant state auditor.

"The express companies are taxed only on the property which is in sight. The business they do and the money they make is not taken into consideration at all. They are assessed by the local assessors. All the assessor can do is to assess the few office chairs and desks they have, and their horses and wagons, if they happen to have any. They do a tremendous business, but they pay almost no taxes at all.

"That is one of the things which ought"

Enterprise Young Woman Leaps

They do a tremendous business, but they pay almost no taxes at all.

"That is one of the things which ought to be remedied in our present assessment of corporations. In other states the express companies are assessed on their franchises, and some such arrangement ought to be made in Kansas."

New Turkish Cruiser Sails.

Philadelphia. March L.—The Turkish Philadelphia. March L.—The Turkish Cruiser Sails.

She entered the car at Enterprise and took a seat near the front end of the car. Nothing unusual happened until the train was within four miles of Woodbine when the suddenly arcse from her seat and rushed to the rear platform. The conductor was notified and the train backed about half a mile to where the young lady was discovered sitting by the side of the track. She was only slightly bruised.

She said she had never been on a train before and, becoming frightened for fear she would be carried beyond her destination, decided to jump off.

ABOUT THE JUSTICES. Must Be Elected in Fall in Second Class Cities.

The biennial election amendment to the constitution adopted two years ago, seems to have mixed up things considerably. It is responsible for a case now in the supreme court over the appointment of district judges by Governor Bailey, and now Assistant Attorney General Close holds that it invalidates the law providing that cities of the second class shall elect their justices of the reace in the spring. Heretices of the reace in the spring. Here-after such cities must hold elections in the full to elect their justices the same

of the suffering and danger in store for her, robs the expectant mother

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought

of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.
